ABSTRACTED-PUB-NO: JP2000302678A

BASIC-ABSTRACT:

NOVELTY - Hair nourishment is attained by ingesting isoflavone (phytoestrogen) derived from hypocotyl of soybean.

USE - For hormonal balance in living body, thereby prevent white hair formation and hair falling in male, and for treating alopecia. Sesame oil and amino acid were blended with isoflavone (100 mg) and administered orally as liquid formulation to 23 year old Davis cup player, wearing hat while playing, for 4 months. The thin hair in the forehead was improved to downy hair.

ADVANTAGE - Hair falling and white hair is prevented and improved effectively by isoflavone. Desired effect is exhibited without any side effects. Hair falling due to resting face of follicles, all at a time is treated and prevented by isoflavone derived from hypocotyl of soybean which has activity similar to female sex hormone (oestrogen).

ABSTRACTED-PUB-NO: JP 05025027A

BASIC-ABSTRACT:

The inhibitor contains the extract of Ikurinin (seeds of Japanese apricot, Prunus mume Sieb. etc. Zucc., Rosaseae, and its analogues) and/or the seeds of Trichosanthes cucumeroides Maxim., Cucurbitaceae, and its analogues. The blend ratio of the extract(s), based on the dry solid content, is, e.g. 0.0001-10.0 wt.%.

USE - The inhibitor has a high inhibiting effect and high safety without damage to the skin.

INT-CL (IPC): A61K 7/06

ABSTRACTED-PUB-NO: JP06072828A

BASIC-ABSTRACT:

A new hair tonic agent contains the liq. of *Luffa cylindrica* M. Roemen, Cucurbitaceae, a stimulating plant ingredient(s) from a stimulating plant(s) and a preservative(s). The stimulating plant is pref. one or a mixt. of *Phellodendron amurense* Rupr., Rutaceae, *Swertia japonica* Makino, Gentianaceae, and *Zanthoxylum piperitum* DC., Rutaceae.

Prepn. of the agent involves a process of mixing the liq. with a preservative(s) and a process of mixing a stimulating plant(s) with a preservative(s) and immersing to exude the plant ingredients; and the liq. and the exudate are then mixed together.

USE - The agent enhances the functions of the skin and promotes hair growth, thereby preventing dehairing.
